HACE TRES AÑOS COMENZÓ "EL SHOCK Y PAVOR": Las bombas empezaron a llover sobre la gente de Irak y las fuerzas armadas invasoras comenzaron su brutal ocupación. Desde entonces, se ha cometido un crimen de guerra tras otro, empezando con la práctica sistemática de tortura en Abu Ghraib (y en otros lugares), el bombardeo aéreo sobre Fallujah que arrojó químicos como el fósforo blanco sobre civiles, las entradas por fuerza en las casas, la continuación de los bombardeos, arrestos y detención— en resumen, una ocupación imperial brutal. Esta guerra criminal e ilegítima se basó en mentiras descaradas que el gobierno de Bush todavía se niega a reconocer. Más de 100,000 iraquíes y 2,000 soldados estadounidenses han muerto debido a esas mentiras. El gobierno de Bush promete arrogantemente continuar la ocupación, con miras a invadir a otros países más.

PERO EN EL PERÍODO PREVIO A LA GUERRA algo más

ocurrió: Millones de personas dentro de Estados Unidos salieron a la calle para impedir la guerra, demostrando que esta guerra y este régimen NO representan la voluntad del pueblo. Este movimiento anti-guerra expuso las mentiras de Bush y tomó partido con la gente del mundo, incluyendo a los directamente amenazados.

EL MUNDO NO PUEDE ESPERAR-HAY QUE SACAR CORRIENDO AL GOBIERNO DE BUSH se unirá a las protestas de primavera por todo Estados Unidos para demandar el fin inmediato a esa guerra. Claramente, la gente de Irak no puede esperar un día más para que termine la brutal ocupación.

EN ESTA BRUTAL GUERRA DE OCUPACIÓN, ¿hay una distinción entre la gente de Estados Unidos y el gobierno? La gente de todo el mundo está observando para ver si la gente de este país se está dejando llevar o si alzará su propia voz en las calles y en la creciente resistencia multifacética.

EL MUNDO NO PUEDE ESPERAR

¡HAY QUE SACAR CORRIENDO AL GOBIERNO DE BUSH!

TU GOBIERNO está librando una guerra asesina ilegítima contra Irak, basada en mentiras, y tiene a otros países en la mira.

TU GOBIERNO tortura, y lo defiende.

TU GOBIERNO detiene indefinidamente por la menor sospecha o deporta en secreto, sin respetar el derecho de los detenidos de ver a un abogado.

TU GOBIERNO avanza día tras día hacia una teocracia, al gobierno de un fundamentalismo cristiano intransigente y cruel.

TU GOBIERNO suprime la ciencia que no cuadra con su agenda religiosa, política y económica, por lo que la presente y futuras generaciones pagarán un precio terrible.

TU GOBIERNO le quiere quitar a la mujer, aquí y en el resto del mundo, el derecho al control de la natalidad y al aborto.

TU GOBIERNO impone una cultura de avaricia, odio, intolerancia e ignorancia.

Todo esto lleva a muchos a pensar en Hitler, y con razón. **El gobierno de Bush se ha propuesto redefinir la sociedad con un molde fascista por muchas generaciones. Tenemos que responder ya; el futuro está en juego.**

Esto tiene a millones y millones angustiados y furiosos. Saben que tienen que hacerse oír, ¿pero cómo? El marco político tradicional no ofrece una alternativa, y lo captan.

La situación no va a pendular por su cuenta. Los que roban elecciones y creen que están cumpliendo una "misión divina" lucharán hasta el final.

No habrá un salvador del Partido Demócrata. Cada día se ve con más claridad lo fatal que es depositar la esperanza y la energía

en "líderes" que nos recomiendan pactar con fascistas y fanáticos religiosos. De hecho, eso lo que hace es desmovilizarnos.

Pero el silencio o la parálisis NO son admisibles. Si no nos oponemos y movilizamos para parar esto, nos obligarán a aceptarlo. No hay de otra: hay que PARAR el desastroso rumbo del gobierno de Bush, y tenemos que asumir la responsabilidad de hacerlo.

Hay una forma de hacerlo. Estamos hablando de algo en una escala que podría efectuar un enorme cambio en este país y en el mundo. Es necesario dejar de luchar contra las atrocidades de Bush una por una, perdiendo terreno constantemente. Debemos y podemos crear un clima político que repudie el gobierno de Bush, que lo saque corriendo y que cambie el rumbo por el que ha encaminado la sociedad. Nosotros, a millones, debemos y podemos responsabilizarnos por cambiar el curso de la historia.

No será fácil. Si decimos la verdad, nos van a querer callar. Si nos movilizamos, nos van a querer parar. Pero nosotros hablamos en nombre de la mayoría de este país y del mundo, vamos a tenderles la mano a los que ha embaucado el gobierno de Bush y NO vamos a parar.

La neta: la historia está repleta de luchas justas que triunfaron contra enemigos superiores. Pero también está llena de ejemplos de gente que se mantuvo al margen, esperando pasivamente que pasara la tormenta, y quedó ahogada por horrores que no se imaginó.

EL FUTURO NO ESTÁ ESCRITO.

EL FUTURO QUE NOS TOQUE DEPENDE DE NOSOTROS.
