

Call to translate for El Mundo No Puede Esperar Mission Statement

The World Can't Wait (WCW) organizes people living in the United States to repudiate and stop the fascist direction initiated by the Bush Regime, including: the murderous, unjust and illegitimate occupations of Iraq and Afghanistan; the global "war of terror" of torture, rendition and spying; and the culture of bigotry, intolerance and greed. This direction cannot and will not be reversed by leaders who tell us to seek common ground with fascists, religious fanatics, and empire. It can only be possible by the people building a community of resistance - an independent mass movement of people - acting in the interests of humanity to stop, and demand prosecution, of these crimes.

This is a call for all bilingual English/Spanish speaking people who agreed with the above Mission Statement to step forward and translate the various articles, statements, leaflets etc that appear on the 4 National WCW English websites World Can't Wait, War Criminals Watch; Fire John Yoo; and We Are Not Your Soldiers into Spanish and also help to promote the WCW's National Spanish website El Mundo no Puede Esperar on such social media sites such as Facebook, Twitter, etc.

Every week important and timely articles from incredible writers such as Andy Worthington, Chris Floyd, Margaret Kimberley, Debra Sweet, Lina Thorne, Ray McGovern, just to name a few, appear on the 4 English WCW websites that not only exposes what is described in the above WCW Mission Statement but also help builds the community of resistance, also described in it.

Do not the over 45 million people who speak Spanish in this country have the right and the necessity to read these articles in their own language? To be able to understand that the attacks that are coming down on them as well as others, such as right to abortion and even birth control, etc. are not happening because some politician is playing to the reactionary racist redneck social base that elected them to office, and that they should not place their hopes or think that someone like Obama, whose administration will have by the end of March or April 2011 deported well over 1,000,000 since taking office, will somehow protect them from the attacks being generated by the different state governments and from his own administration.
